TRANSPORTATION BRANCH
SERVICES DIVISION
MONTHLY REPORT FOR
SEPTEMBER 1958

3 October 1958

1. Accomplishments

During the past month Branch personnel reviewed and evaluated for the Department of State six technical pamphlets submitted by USSR delegation to the ECE Working Group on Technical Railway Problems. We found the pamphlets to have no intelligence significance and also to contain no new technical data or reporting not easily obtainable in other Soviet literature.

Personnel in the Far East section, particularly [REDACTED], have been called upon to render unusual amounts of current intelligence support on the Formosa Straits problem. The effectiveness of this support has been limited considerably by the faulty reporting from the field on this area. We are negotiating currently with other Agencies to determine measures or procedures that can be adopted to correct this reporting. Pending a solution to the problem we are currently making our own rack-ups of activities in the Formosa Straits area.

25X1A9a

Branch personnel submitted or contributed to ten other items for OCI publications.

25X1A9a [REDACTED] is furnishing support to DD/P on air corridors throughout the Soviet Bloc.

25X1A9a [REDACTED] briefed FDD representatives on S/TR merchant shipping requirements.

2. Administration

25X1A9a Mr. [REDACTED] entered on duty with the Branch and has been assigned to S/TR/F.

3. Report on S/TR Research Activity

A Projects Submitted in September

Project Number	Title	Analyst(s)
